(www.charitychoice.co.uk)

The PHA UK community is like no other - a unique group of people committed to supporting each other and raising awareness of this serious condition in the hope of one day, finding a cure.

Set up in 2000, the charity's work is focused around four key areas:

- Awareness and education
- Support for people affected by PH
- Research
- Influence and advocacy

Membership of the PHA UK is totally FREE and includes:

- Free access to emotional support via our partnership with Anxiety UK
- Free access to financial advice via our partnership with Turn2Us
- A 52-page member magazine delivered four times a year

Free publications and resources are for all at www.phauk.org

We believe in doing all we can to help people affected by pulmonary hypertension, which is why membership of the PHA UK is free – and always will be. As far as possible, we also ensure that support materials and events, such as printed resources and conferences, are provided free of charge or heavily subsidised.

We rely heavily on fundraising support to enable us to carry out our work. As an entirely independent charity, we receive no financial support from the National Health Service (NHS) or Government funding.
